Introduction

Web Developer specializing in Angular with a focus on responsive design, clean UIs, and seamless API integration. Basic experience with Django REST Framework on the backend. Passionate about continuous learning, with a creative edge from a background in 3D art and rendering.

Skills

Frontend Development

HTML, CSS/SASS, JavaScript/TypeScript, Angular.

Backend Development

Python, Django/Django REST Framework

Game Development

C++, Unreal Engine, Blender

Languages

Arabic (Native)
French (Fluent)
English (Fluent)

Professional Experience

Junior Web Developer

2023 – 2024

Majal Berkane

- Developed and maintained internal web tools using **Angular**, focusing on clean and well-structured code
- Worked on challenging projects that pushed technical skills and improved overall development practices
- Continued growing expertise in **API integration** and frontend development

Junior Web Developer

2021 – 2022

Marafiq Berkane

- Developed and maintained internal web tools using **Angular**, building responsive and user-friendly interfaces
- Gained hands-on experience with **API integration**, initially working with **ASP.NET** before transitioning to **Django REST Framework**
- Collaborated on frontend features while learning to connect and consume backend APIs

Projects

EcoGeste – Back-office Management System 🔗

02/2025 – 07/2025

Contributed to the **EcoGeste** back-office system by developing admin dashboard features in **Angular**, enabling the management of products, rewards, and application content through API integration.

Skills : Angular, TypeScript, NgZorro

E-Commerce Web Application 🔗

Developed a responsive e-commerce web application. Worked on reusable UI components, product pages, API integration, routing, and improving user experience while collaborating within a professional development team.

Skills : Angular, TypeScript, TailwindCSS

AI-Powered Resume Builder 🔗

Developed an AI-powered Resume Builder web application using Angular and Django REST Framework. Integrated AI APIs to help users generate and improve resume content, while working on responsive UI design, dynamic forms, and API integration.

Skills : Angular, TypeScript, SCSS, Django REST, SQLite

Certificates

- Technical Support Fundamentals 🔗
- Bits and Bytes of Computer Networking 🔗

Education

OFPPT (Office de la Formation Professionnelle et de la Promotion du Travail), Diploma in Software Development

2020 – 2021
